

Task-based Activity Cover Sheet

Task Title: Calculate Change from a Purchase

Learner Name:	
Date Started:	Date Completed:
Successful Completion: Yes ___ No ___	
Goal Path: Employment <input checked="" type="checkbox"/> Apprenticeship ___ Secondary School ___ Post Secondary ___ Independence ___	
Task Description: Calculate the change to receive after making a cash purchase.	
Competency: C: Understand and Use Numbers	Task Group(s): C1: Manage Money
Level Indicators: C1.1: Compare costs and make simple calculations	
Performance Descriptors: see after answer key or click here	
Links to skill building activities: see the last page or click here	
Materials Required: <ul style="list-style-type: none">• Optional: Home Hardware flyer (attached) (not required to answer questions)• Pencil and eraser	
ESKARGO: C1.1 <ul style="list-style-type: none">• Understands place value• Writes and solves simple addition and subtraction sentences (e.g., $5 + 6 = 11$)• Subtracts whole numbers by borrowing• Identifies the effect of zero in addition and subtraction• Adds and subtracts multi-digit whole numbers with and without regrouping• Identifies and performs required 1-step operations• Adds and subtracts multi-digit whole numbers and decimals	

Attitudes:

Practitioner,

We encourage you to talk with the learner about attitudes required to complete this task set. The context of the task has to be considered when identifying attitudes.

With your learner, please check one of the following:

Attitude is not important Attitude is somewhat important Attitude is very important

Task Title: Calculate Change from a Purchase

Learner Information and Tasks:

Cleaners purchase cleaning supplies. When paying with petty cash from work, it is important to make sure to get the right amount of change back from a purchase.

- Task 1:** The total cost with tax for buying Lysol all-purpose cleaner is \$3.70. The cleaner pays for it with a \$10 bill. Calculate the amount of change the cleaner should receive.
- Task 2:** The total cost with tax for buying Lysol disinfecting wipes and Old Dutch powder cleaner is \$4.70. The cleaner pays with a \$20 bill. Calculate the amount of change the cleaner should receive.
- Task 3:** The total cost with tax for buying Magic Erasers, a glass cleaner, and an all-purpose cleaner is \$11.40. The cleaner pays with a twenty-dollar bill. Calculate the amount of change the cleaner should receive.
- Task 4:** The total cost with tax for buying a broom, cleaning cloths, and toilet bowl cleaner is twenty-two dollars and seventy-five cents. The cleaner pays with a fifty-dollar bill. Calculate the amount of change the cleaner should receive.

Task Title: Calculate Change from a Purchase

Answer Key

Task 1: The total cost with tax for buying Lysol all-purpose cleaner is \$3.70. The cleaner pays for it with a \$10 bill. Calculate the amount of change the cleaner should receive.

$$\$10.00 - 3.70 = \mathbf{\$6.30}$$

Task 2: The total cost with tax for buying Lysol disinfecting wipes and Old Dutch powder cleaner is \$4.70. The cleaner pays with a \$20 bill. Calculate the amount of change the cleaner should receive.

$$\$20.00 - 4.70 = \mathbf{\$15.30}$$

Task 3: The total cost with tax for buying Magic Erasers, a glass cleaner, and an all-purpose cleaner is \$11.40. The cleaner pays with a twenty-dollar bill. Calculate the amount of change the cleaner should receive.

$$\$20.00 - 11.40 = \mathbf{\$8.60}$$

Task 4: The total cost with tax for buying a broom, cleaning cloths, and toilet bowl cleaner is twenty-two dollars and seventy-five cents. The cleaner pays with a fifty-dollar bill. Calculate the amount of change the cleaner should receive

$$\$50.00 - \$22.75 = \mathbf{\$27.25}$$

Task Title: Calculate Change from a Purchase

Performance Descriptors		Needs Work	Completes task with support from practitioner	Completes task independently
C1.1	<ul style="list-style-type: none"> adds, subtracts, multiplies and divides whole numbers and decimals 			
	<ul style="list-style-type: none"> recognizes values in number and word format 			
	<ul style="list-style-type: none"> identifies and performs required operation 			
	<ul style="list-style-type: none"> interprets and represents costs using monetary symbols and decimals 			
	<ul style="list-style-type: none"> follows apparent steps to reach solutions 			
	<ul style="list-style-type: none"> uses strategies to check accuracy (e.g. estimating, using a calculator, repeating a calculation, using the reverse operation)
