Task Title: Reading for Health

Task Description: The learner reads two articles, both on health-related topics.

Learner Instructions:	
Read the two articles and give your opinion by answering the questions below in writing. Yo may refer to a dictionary for any words you do not understand. Use correct sentences when writing your answers.	u
1. What does the word "symptoms" mean?	
2. What are some symptoms of the flu?	
3. What should you do if you think you have the flu?	
4. What is a vaccine?	
5. Who should take the flu vaccine? Why?	
6. Do you agree or disagree that people should take the flu vaccine?	

Beware..... the Flu!

In Canada, about 2,000 people die from the flu every year. However, most people get sick for only a week or two.

When you have the flu, sometimes your muscles ache and you might have a headache and the chills. You should stay in bed and drink lots of fluids like juice and water. Some adults take pills like Tylenol for the flu, but you should not give children any pills without checking first with your doctor.

There is a vaccine you can get to prevent the flu. Most senior citizens get this shot. Other adults or children with serious health problems should take the vaccine as well.

T'is the Season for Colds

There are over 2,000 types of viruses that cause colds. The cold virus gets into your nose. You will get the virus on your hands and then if you touch your nose, the virus will get into your nose. That is why it is so important to keep your hands clean. If you do have a cold, and you have to blow your nose, always wash your hands after doing so. You can spread your cold to others by not keeping your hands clean. If you have a cold, it is not a good idea to share your things with others.

If you have a cold, it is a good idea to make sure you get plenty of rest. You can take medicine like Tylenol for a cold. If you have a cold for too long, check with your doctor in case you get something more severe, like pneumonia.

Questions	for	"T'is	the	Season	for	Colds!"
Zuconono	101	1 10	unc	ocaboli	101	Corab.

1. How many types of cold viruses are there?

2. What does the word "virus" mean?

3. Is "virus" a noun or verb?

4. Why is it important to keep your hands clean?

5. What might happen if your cold lasts for a long period of time and keeps getting worse?

6. Which do you think is worse, a cold or the flu? Give two reasons why.

		Performance Descriptors	Needs Work	Completes task with support from practitioner	Completes task independently
A1.2:	٠	Makes connections between sentences and between			
		paragraphs in a single text.			
	٠	Scans text to locate information.			
	•	Locates multiple pieces of information in simple texts.
