Learner Information

Communicating by text message is one way people communicate quickly with each other. Scan the text messages between a carpenter foreperson and their crew member.

Hey Sam, we got a problem on site today. The wood for the framing is warped and twisted. We can't use it like this.

Oh no. That not good. What we do?

Take the wood back to the lumber yard and swap it out for new straight wood.
Tell them it's no good for building.

Ok I go lumber yard. Tell them bad wood and need new wood.

Right. Be sure you show them the warped pieces so they understand the problem. Get enough new wood for the whole framing job.

Ok I show bad wood and get more good wood for the job

Great let me know when you're back with the new lumber and we'll start framing again.

Ok will let you know when back.
